

## ISA One-on-one Buddy Program

### International Students Association (ISA)

The International Students Association is a volunteer group of International Affairs Office at School of Business Administration, dedicating to helping international students with their life and study at SWUFE.

### What is Buddy Program?

"One-on-one Buddy Program" assigns a Chinese "Buddy" to every international student. The Buddy will help new comers to adapt themselves quickly and offer assistance if any problems arise, particularly during the first few weeks. The supportive assistance may include:

- Airport picking up.
- Campus tour.
- Registration for school, accommodation and courses.
- Finding an off-campus apartment.
- Applying for SIM card and internet.
- Organizing activities.
- Shopping advices and other living tips etc.

International students will receive an email with the name and contact information of their Buddies at the end of December. It is very important that the international students get in touch with their Buddies before departing for China.

### Activity: Cultural Saloon

Cultural Saloon is co-founded by the office of International affairs and ISA, where local and international students are involved in non-official cultural exchange. Students are invited to

give a speech on some interesting cultural topics, such as Chinese calligraphy, Swedish tradition, French stereotypes or anything about your own culture. It is a time for free talks and interesting games. The saloon is run regularly each semester, from which you can have a deeper understanding of Chinese culture as well as a chance of making more friends.
